

Packaged Air Conditioner with Puron® Refrigerant

MODEL PA4Z

LEGACY™
LINE

Bryant's Most Affordable Package

Earning Your Trust Since 1904

Competition for consumer confidence is tougher than ever. That's why Bryant continues to build on a foundation of delivering comfort... reliability... and value that started back in 1904. We've earned our reputation through a commitment to continuously meet and exceed the changing needs of homeowners just like you. Today, as consumers face increasingly difficult decisions on the products they choose, Bryant responds with our most affordable packaged air conditioner - the Model PA4Z.

Designed to Fit

The Bryant Model PA4Z delivers solid, reliable cooling at 14 SEER (Seasonal Energy Efficiency Ratio). It offers durability built in with our high-tech composite base, and its 32" narrow cabinet design allows a perfect fit for when space is at a premium.

Add our durable compressor, corrosion-resistant copper tube aluminum fin coil, and attractive durable cabinet, and it's easy to see why Bryant backs the Model PA4Z for years of dependable, worry-free comfort.

ged Air Conditioner

Peace of Mind

Having a great warranty helps you enjoy your comfort with confidence. Bryant builds trusted reliability into every product, then provides additional peace of mind with excellent warranty protection.

To the original owner, the Bryant Model PA4Z packaged product is covered by a 10-year parts limited warranty upon timely registration of your new equipment.*

Ask your Bryant dealer about optional extended warranties, which may include labor.

* Warranty period is 5-years if not registered within 90-days. Jurisdictions where warranty restrictions are not allowed will automatically receive a 10-year parts warranty. See warranty certificate at Bryant.com for complete details.

Performance

Environmentally Sound Puron®

Designed specifically for use with Puron® refrigerant, the Model PA4Z provides an environmentally sound solution for the scheduled phase-out of Freon®-22*. Freon-22, the industry standard refrigerant for many years, is being taken out of production due to environmental concerns. As it becomes less and less available, costs to service heat pumps using Freon-22 may rise (an idea supported by the rise in costs to service automobile air conditioners using the phased-out Freon®-12*). By choosing Puron now, you are making a decision that is both environmentally and financially sound.

Optional Comfort Control

Take control of your comfort with Bryant's optional Housewise™ thermostat. Professionally installed by your trusted Bryant® dealer, the Housewise thermostat is your gateway to average heating and cooling energy savings of 20%.*

HOUSEwise

* Based on a 2012 third party study comparing Bryant® Housewise™ technology to the estimated cost of a non-programmable thermostat set to 72° F at all times.

Wi-Fi® is a registered trademark of Wi-Fi Alliance Corporation.

* The registered owner of Freon is E.I. DuPont de Nemour & Co.

Home Comfort Components

- 1 ENERGY EFFICIENT**
Our compressor is designed for use with Puron® refrigerant to provide quiet, smooth-operating comfort and years of trouble-free performance.
- 2 QUIET OPERATION**
Is attributed to the fan blade. The unique design moves air with less noise and turbulence for quieter, more efficient operation.
- 3 32" NARROW CABINET DESIGN** (all sizes)
allows a perfect fit for zero lot line installations.
- 4 DURABILITY AND INDOOR AIR QUALITY**
Built with a high-tech composite material, Bryant's premium base will not rust. Sloped design and integrated drain minimize standing water to improve indoor air quality by inhibiting mold, bacteria and algae growth.
- 5 LASTING LOOKS AND PROTECTION**
Louvered side panels provide proper airflow while protecting the all-important coil. Solid cabinet panels help protect against infiltration of dirt, debris and moisture.
